Trusted local Doc Opens Family-Feel Assisted Care Home

Opening January 2020, North of Cave Creek

Dec 28, 2019, 1722 E Tamar Road, Phoenix, AZ 85086. Justin Wight, MD has been nicknamed “Doc” since he was a small child. Justin always wanted to be a Physician like his Grandpa and Uncles, and for the past 12 years he has practiced Family Medicine in central Arizona, with 10 of those years spent at Dynamite Creek Family Practice in Cave Creek.

Dr. Wight’s family has deep roots in Arizona, not only in medicine but in the world of Arabian Horse Industry. Both his mother and grandmother have been an integral part of the production of the Scottsdale Arabian Horse Show for the past 40 years. Over time, Doc has seen thousands of patients; so many of whom are old friends, having known him since his childhood. Dr. Wight is locally a graduate of both the U.of A. and Chaparral High School, where he met his longtime friend and business partner, Josh Brimhall.

Josh has his own strong Arizona heritage; his family are heavily involved in local business and development including somewhere we all know well, Castles and Coasters. Together, Justin and Josh have spent the past 2 years working on their shared vision of creating a small, family-feel assisted care home where seniors could live in a comfortable, warm and dignified community.

Dr. Wight’s beloved, late grandfather, Dr. William McCrea MD, depended upon assisted living when his health began to decline, and Justin has never forgotten the peace of mind that care gave to his family. ***“I feel strongly that our elders are an underserved community. I see their needs everyday in my clinic. By giving them the extra support they need, I want to create an environment where seniors can feel alive and engaged, and also have a sense of home. That’s really the genesis behind Doc’s Place” - Dr. Justin Wight, MD.***

Doc's Place is slated to open in January 2020, with 10 beautiful bedrooms and a bright, welcoming open-plan living and kitchen area. **This all inclusive home sits at the base of Apache Peak Mountain, offering a peaceful desert oasis.** Our compassionate staff includes Dr. Wight's experienced Medical Assistant from his daily clinic, Bilynda Neal, who lives onsite. Doc's Place Manager, and Registered Nurse, Kathy Turner brings over 30 years of eldercare experience. We are also fortunate to have Taylor Mason on our team, bringing culinary and hospitality expertise to our residents. And not forgetting Keia, our therapy horse!

Because of our unique model, our staff are Physician-directed and residents can choose Dr. Wight as their Primary Care Physician, creating an excellent standard of care and nurturing an interconnected community. Our all-inclusive plan includes a daily enrichment schedule, alongside wellness and salon services.

Visit our Open House on January 4th, 2020, 1-5pm.

Or schedule a tour (623) 233-4488, info@thedrsplace.com.

Doc's Place is a physician co-owned and operated assisted living facility for seniors. We are an all inclusive, luxurious boutique home, and you'll find us situated at the foot of Apache Peak Mountain, just north of Cave Creek. We have 10 beautiful, light and airy bedrooms and can accommodate couples. We offer spacious living and eating areas both inside and outside, with a daily schedule of enrichment and wellness, and frequent visits from Dr. Wight. Call us today with questions or to schedule a tour at 888.995.9791, and find us online at www.thedrsplace.com.
